## Dual-Sided Reversible Hex Driver with Easy Clean Magnet

Scan the QR code with your Smart Phone for a quick video!

### Malco's Exclusive

double-duty chuck driver with "Easy Clean Magnet," ensures that every-day-use 1/4" & 5/16" Hex Drives are always close at hand and positively engage the fastener head.

It's the PERFECT SYSTEM when paired with Malco Zip-in and Bit-Tip screws.

- Reversible design offers quick convenience of changing hex tip size while shaft is still engaged in drill or driver chuck.
- An accessible "Easy Clean Magnet" requires just a swipe with glove or cloth to clear any metal shavings and ensure that engagement of your Zip-in or Bit-Tip hex head is never compromised and always seats flush.
- Tested torque of the reversible hex chuck driver design is equal to one-piece drivers.
- And you pay less per hex size versus separate chuck driver sizes of comparable length!
