Knee Pads

Made with DuPont Cordura®

TPKP3

Softcap Knee Pads

Foam padded to hug the knees and covered with tough DuPont CORDURA®. Non-slip surface prevents sliding. Long thick cap improves weight distribution, and wider elastic straps hold pads more securely. Thicker contoured foam and adjustable closures provide added comfort and mobility. Natural color cap is non-marring.

TPKP2

Hardcap Knee Pads

Foam padded to hug the knees and covered with tough DuPont CORDURA®. Offers superior protection and body weight distribution so user can swivel and slide freely on working surface. Thicker foam padding and adjustable closures provide added comfort and mobility.

TB1

Rust Proof Plastic Tool Box

1671

This large capacity tool box is lightweight, yet made with durable polypropylene. Rust proof polypropylene also resists grease and most solvents. Boxes are fully lockable with polished steel drawbolts and removable tray.

Tote Tray for Plastic Boxes

1660

These heavy duty, crush proof tote trays are great for carrying hand tools and fasteners to the job site. Rust proof polypropylene body material is long wearing, lightweight and portable. Three roomy compartments to accommodate all the tools you need. Comfortable hand grip rolls to outside will not bit into palm of hand. Model 1660, tote box only.
