

**Features**

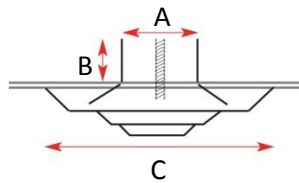

- Fully adjustable ventilation grille
- Center adjustable cone spins in and out allowing for variable ventilation capacity
- Compression spring tabs clip the grille into 4", 5", 6" or 8" round duct, no screws required
- Cool white, non-corrosive material

**Flow Specifications and Performance**

Ratings shown are 80% open capacity (12 turns)

Dimensions

	99-EAG4	99-EAG5	99-EAG6	99-EAG8
A (Duct Size)	4"	5"	6"	8"
B	1"	1 ¼"	1"	2"
C	5 ⅞"	6 ¼"	7 ½"	9 ¾"

**Installation**

After installing your TechGrille vents and connecting them to your duct-work from your HRV, begin balancing the ventilation ports by increasing openings on the most distant TechGrille until the flow is equal throughout the building. Usually two rounds of balancing will provide the desired air distribution.

Compression spring tab clips the grille into 4", 5", 6", or 8" round duct.

**Ceiling Mount**

**Wall Mount**
