Wireless FocusPRO® Systems

Honeywell

Connection and Value

Wireless FocusPRO® Systems Application

FocusPRO's reliable design and attractive price makes it the most valuable thermostat control on your truck.

The FocusPRO system offers many additional components and accessories, creating the ideal opportunity for add-on sales. And with easy installation, there are virtually no added costs for service labor. And, your customer's will be able to monitor and control their home from anywhere at any time with Honeywell Total Connect Comfort Services. It's maximized comfort for them, optimized profitability for you. **It's the power of connection.**

Connect to the Internet

Connect any RedLINK™ Comfort System to the Internet to provide your customers with remote access from their PC, smart phone or tablet[1] using Honeywell's RedLINK Internet Gateway.

Four steps are all it takes to get connected:

1. Plug the RedLINK Internet Gateway into a 120V wall plug

2. Connect the included Ethernet Cable into an existing internet router

3. Press and release the botton on the bottom of the RedLink Comfort System to establish communication

4. Provide your customer with the unique serial number found on the bottom of their RedLINK Internet Gateway
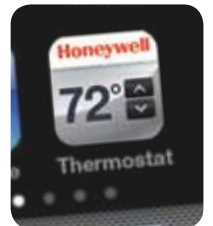

The rest is done online when your customer registers their serial number at **www.mytotalconnectcomfort.com.**

[1] Free apps are available for Apple iPhone, iPad and iPod and Android devices. Check www.mytotalconnect.com for more mobile applications coming soon.

[2] Outdoor air sensor required.

Don't Just Connect. Total Connect.

Once registered, your customers have the ability to customize their system and alert settings, download free mobile apps and more at the Total Connect Comfort web portal.

Total Connect enables users to:

- View and change their HVAC system settings (Heat, Cool, Off, Auto, EM Heat)

- View and set the temperature

- View outdoor temperature and humidity[2]

- Access multiple thermostats if the system is zoned

- Access multiple locations if more than one system is connected

- Receive temperature alerts via e-mail

- Get automatic upgrades as new features are available

Wireless FocusPRO® thermostats are RedLINK™-enabled which means they're able to communicate with other RedLINK™-enabled devices for a complete system approach that installs in the same amount of time.
