Reshaping Duct Smoke Detection

The InnovairFlex product line offers testing and inspection features to meet any code. The 2:1 sensor-to-power capability allows a power board to monitor both supply and return side detectors when required. The easily accessible Test/Reset button simplifies testing for conventional 4-wire models. Plus, the flexible housing overcomes mounting constraints by adjusting to fit a broad range of applications.

System Sensor provides increased flexibility with a variety of accessories, including two remote test stations and several different means of visible and audible system annunciation. As with our duct smoke detectors, all accessories are UL listed.

Unmatched Flexibility

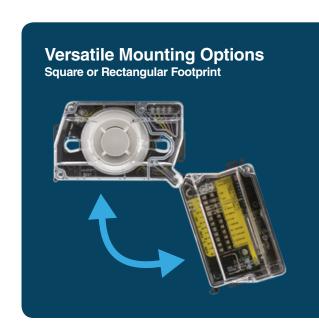

- Air velocity rating from 100 ft/min to 4,000 ft/min (0.5 m/s to 20.32 m/sec)
- Versatile mounting options in square or rectangular configuration with modular construction
- Broader ranges for operating temperature (-4°F to 158°F) and humidity (0% to 95% non-condensing)

Superior Features

- Integrated low-flow technology
- One easy-access "Test/Reset" button (for conventional 4-wire models)
- Patented interconnectability for multi-fan shutdown
- Built-in short circuit protection from wiring errors
- Field-selectable settings for configuring the detectors
- Sampling tubes install from both front and back of the detector with patented snap in place feature.
- Easy and quick mounting to round or rectangular ducts of 1 ft. or 12 ft. (0.3 m to 3.7 m) wide

D4120Duct Smoke Detector in Rectangular Orientation

Conventional

Duct Smoke Detectors

InnovairFlex™ duct smoke detectors combine an impressive collection of innovations to greatly simplify HVAC system monitoring. One unit can accommodate multiple installation footprints to overcome mounting constraints. Tool-free, plug-in sampling tubes speed and simplify installation. Broad temperature and humidity ranges accommodate exposure to environmental extremes. Easily visible status indications, a readily accessible test feature, and remote test station accessories simplify testing and maintenance. With its unmatched flexibility, InnovairFlex can adjust to fit any application.

Conventional Duct Smoke Detection Devices

D4120	4-wire photoelectric low-flow duct smoke detector, 24 VAC/DC, 120 VAC
D4240	4-wire photoelectric low-flow duct smoke detector, 24 VAC/DC, 240 VAC
D4S	4-wire photoelectric sensor component only
D4P120	4-wire photoelectric power board component only, 24 VAC/DC, 120 VAC
D4120W	Watertight 4-wire photoelectric duct smoke detector
D2	2-wire photoelectric low-flow duct smoke detector

- 4-Wire Photoelectric, integrated low-flow technology
- Air velocity rating from 100 ft/min to 4,000 ft/min (0.5 m/s to 20.32 m/sec)
- Versatile mounting options: square or rectangular configuration
- Plug-in sensor and latest sensor technology help prevent false alarms
- Broad ranges for operating temperature (-4°F to 158°F) and humidity (0% to 95% non-condensing)
- Patented sampling tube installs from front or back of the detector with no tools required
- Increased wiring space with an additional ¾-inch conduit knockout
- One easy-access Test/Reset button and improved LED status
- Patented interconnect feature for multi-fan shutdown
- New high-contrast terminal designations
- Built-in short circuit protection from operator wiring errors
- Field-selectable settings for configuring the detector
- Two DPDT Form-C relay contacts
- 24 VAC/DC or 120 VAC
- Backward compatibility with existing Innovair products, including remote accessories

4-wire Photoelectric Sensor Head

Photoelectronic Low-Profile Plug-In Detector for Special Applications. For replacement purposes with 4-wire InnovairFlex duct smoke detectors.

Note: The 2D51 needs to be used with the D4P120 and B210LP for pendant mount applications.

Intelligent

Duct Smoke Detectors

InnovairFlex™ duct smoke detectors combine an impressive collection of innovations designed to save you time and money and provide the flexibility you need in the field. An adjustable housing overcomes mounting constraints. Plug-in, tool-free sampling tubes speed installation. The DNR model accommodates a wide variety of intelligent smoke detectors (detector head sold separately). With these features and many more, InnovairFlex is reshaping duct smoke detection.

DNR	Intelligent non-relay photoelectric duct smoke detector. *Detector head sold separately	
DNRECL	Eclipse series intelligent duct smoke detector housing	
DNRHS	High sensitivity duct smoke detector which provides very early warning fire protection in interior duct applications	
DNRW	Watertight intelligent non-relay photoelectric low-flow duct smoke detector *Detector head sold separately	

- Photoelectric, integrated low-flow technology (detector head sold separately)
- Air velocity rating from 100 ft/min to 4,000 ft/min (DNR)
- Air velocity rating from 300 ft/min to 4000ft/min (1.52m/s to 20.32m/sec) (DNRECL & DNRHS)
- Adjusts to square and rectangular mounting configurations
- Broad ranges for operating temperature (-4°F to 158°F) and humidity (0% to 95% non-condensing)
- Patented tool-free, plug-in sampling tubes
- New cover tamper signal
- Increased wiring space with a new 3/4-inch conduit knockout
- Housing has space for mounting a relay module
- Easily accessible code wheels on sensor head (sold separately)
- Clear cover for convenient visual inspection
- UL 268A listed
- Remote testing capability
- Requires com line power only
- NEMA Type 4 UL listed for non-hazardous indoor and outdoor applications (DNRW only)
- UV-resistant, UL-listed housing and cover material (DNRW only)
- 24 VDC operation (DNRHS)
- Temperature range 32°F to 100°F (0°C to 38°C) (DNRHS)

2251BRPhotoelectric Smoke Detector

For use with DNR(W) duct smoke detectors, the intelligent plug-in smoke detector with integral communication provides point location for alarm communication and selective maintenance.

systemsensor.com/**flex**

2:1 Sensor-to-Power Board Configuration

InnovairFlex 4-wire duct smoke detector has the ability to power two sensors from one power board. With its 2:1 sensor-to-power board capability, the power board of the D4120 may be used to monitor a second D4S sensor simultaneously. This is perfect for applications where monitoring both supply and return are required.

Watertight

Duct Smoke Detectors

Is your HVAC installation on the rooftop? NEMA 4-rated InnovairFlex™ watertight duct smoke detectors operate in the most challenging conditions without costly and bulky enclosures. Watertight InnovairFlex duct smoke detectors (D4120W conventional, DNRW intelligent) include a UV-resistant housing that provides protection against dirt, rain, and other water sources, so you can mount these detectors on HVAC equipment in harsh environments while saving on materials and labor

Watertight Duct Smoke Detectors

D4120W	Watertight 4-wire photoelectric duct smoke detector
	Watertight intelligent non-relay photoelectric low-flow duct smoke detector *Detector head sold separately

- NEMA Type 4 UL listed for non-hazardous indoor and outdoor applications
- UV Resistant, UL listed housing and cover material
- 4-Wire Photoelectric, integrated low-flow technology
- Air velocity rating from 100 ft/min to 4,000 ft/min (0.5 m/s to 20.32 m/sec)
- Versatile mounting options: square or rectangular configuration
- Plug-in sensor offers the latest sensor technology helps to prevent false alarms
- Broad ranges for operating temperature (–4°F to 158°F) and humidity (0% to 95% non-condensing)
- Patented sampling tube installs from front or back of the detector with no tools required
- Increased wiring space with additional 3/4-inch conduit knockout
- One easy-access Test/Reset button and improved LED status
- Patented interconnect feature for multi-fan shutdown
- New high contrast terminal designations
- Built-in short circuit protection from operator wiring errors
- Field-selectable settings for configuring the detector
- Two DPDT Form-C relay contacts
- 24 VAC/DC or 120VAC
- Backward compatibility with existing Innovair products, including remote accessories

Accessories

Conventional and Intelligent

Duct smoke detector accessories add functionality to the duct smoke detection system by allowing quick, convenient inspections at eye level and effective audible and visible notification options. All System Sensor duct smoke detectors and accessories are UL listed.

Accessories

ADA 151#	15	
APA151*	Remote annunciator with piezo alarm	
DH400OE-1*	Weatherproof duct smoke detector enclosure	
DST1*	Metal sampling tube duct width up to 1ft (0.3m)	
DST1.5 *	Metal sampling tube duct widths 1 ft to 2 ft (0.3 to 0.6 m)	
DST3*	Metal sampling tube duct widths 2 ft to 4 ft (0.6 to 1.2 m)	0
DST5*	Metal sampling tube duct widths 4 ft to 8 ft (1.2 to 2.4 m)	
DST10*	Metal sampling tube duct widths 8 ft to 12 ft (2.4 to 3.7 m)	
ETX*	Metal exhaust tube duct width 1ft (0.3m)	
P48-21-00*	End cap for metal sampling tubes	
RA100Z*	Remote annunciator alarm LED	
RTS151*	Remote test station	
RTS151KEY*	Remote test station with key lock	
RTS2	Multi-signaling accessory, without strobe	
RTS2 - AOS	Multi-signaling accessory with add-on strobe	
SENS-RDR	Utilizes infrared technology to read the sensitivity of i³ series detectors	SMOKE

RTS151

Special Applications

Pendant Mount

The System Sensor 2151 low-profile photoelectric smoke detector with a B114LP or B114LPBT base is listed to Underwriters Laboratories 268A specifically for use in no-flow/low-flow air-handling systems.

Special Applications

2151	Low-profile photoelectric plug-in detector	
2D151	Low-profile photoelectric plug-in detector	
B114LP	120 VAC detector base	
B114LPBT	24VAC/DC detector base	
B210LP	Intelligent base - 15-32 VDC	
D4P120	4-wire photoelectric power board component only, 24 VAC/DC, 120 VAC	

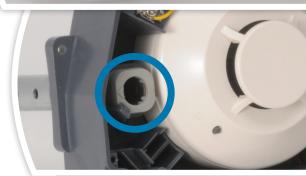

Note: 2151 with B114LP or B114LPBT is not remote test capable, for remote testing use 2D51, B210LP with D4P120.

Sampling Tube

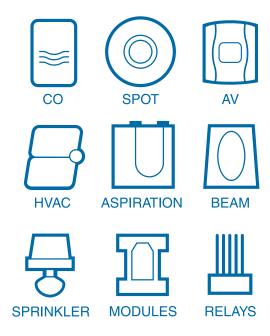

The InnovairFlex sampling tube may be installed from the front or back of the detector. The tube locks securely into place and can be removed by releasing the front or rear locking tab (rear locking tab shown below).

systemsensor.com/flex

Founded in 1984, System Sensor is a global manufacturer of fire and life safety devices, specializing in smoke detection, carbon monoxide detection, and notification technology. System Sensor develops products for real-world applications worldwide. With sales, service, and manufacturing facilities throughout the Americas, Europe, and Asia, System Sensor places a premium on research and development to provide the most reliable, innovative, and comprehensive line of products in the industry.
