

Give your pressure gauge a rest. With the Honeywell DialSet® Pressure Regulating Valve, you don't need a pressure gauge.

The built-in adjustment dial eliminates the need for a gauge when adjusting the static pressure setting. The influence of German engineering gives this product the capability to be installed by one individual and the reliability that helps to increase your profits through fewer callbacks. Plus, the DialSet PRV has the flexibility to work in a variety of applications, so you can reduce your inventory.

DS05/DS06 Series DialSet® Pressure Regulating Valve

CONTROL WATER PRESSURE WITHOUT A GAUGE.

Built-In Dial-Set™

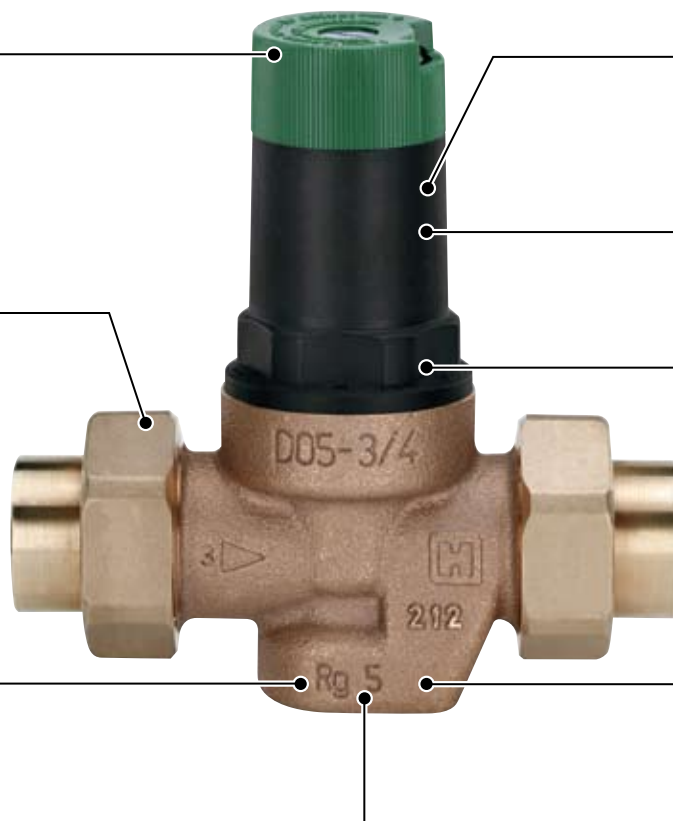

No gauge is needed to install it or set the static pressure — eliminating the need for a second person.

Application Versatility

Install it just about anywhere. The internal and external threading allows for use in thread-by-thread, single-union or double-union configurations.

Reliable

It's from Honeywell.

Noncorroding Unitized Cartridge — Contains all working parts and is easily replaceable.

Noise-Free Operation
Includes built-in strainer and thermal bypass.

Adjustment Range
Outlet adjustment pressure range reduces high incoming street pressure to protect household fixtures, appliances and plumbing components from over-pressurization.

Approvals — ASSE 1003, IAPMO, CSA

Maximum Inlet Pressure Rating
Inlet pressure rating range of up to 400psi, the highest in the industry.
