

## YELLOW JACKET® SLING PSYCHROMETER

Streamlined, compact tool measures wet and dry bulb temperatures of surrounding air for immediate

conversion of readings to relative humidity percentage.

- One piece unit self-contained housing fits into your pocket
- Calibrated and easy-to-read
- "Slide rule" scale is part of the case

- Accurate to 1% of "Hygrometric Tables"

UPC #	Description
69010	Sling psychrometer
69011	Replacement wicks (5 pack)
69015	Replacement thermometer

## YELLOW JACKET® DIGITAL ELECTRONIC MANOMETER

The unit benefits all contractors who wish to eliminate the mess and fragility of U-tubes or diaphragm type gas pressure gauges. This easy to use electronic instrument provides a continuous display of the measured positive or negative pressure. The unit provides

measurements from -19.95" to +19.95" water column. Ideal for setting gas pressure at manifold, also check pressure, flue draft and air balancing. Once your work is complete it automatically turns itself off. Kit includes battery, tubing, and brass fitting.

- -19.95" to +19.95" water gauge
- 0.05" WG resolution
- Easy to use
- Large LCD display
- Automatic power-off
- Long battery life
- Includes 18" tubing and fitting

UPC#	Description
78050	Digital electronic manometer
78051	Battery door
78071	Tubing with fitting
59511	Brass fitting only

## YELLOW JACKET WATER-TYPE MANOMETER

Economical plastic tube manometer helps you set manifold pressure for natural or L.P. gas. Now goes to -2" W.C. for newer systems.

Strong magnet on manometer holds it in convenient upright position.

Includes tubing with fitting.

UPC #	Description
78070	-2" - 0 - 7-1/2" scale manometer
78075	-2" - 0 - 15" scale manometer
78071	Tubing with fitting
59511	Brass fitting only

## YELLOW JACKET® GAS PRESSURE TEST KIT

Easier to use than a manometer, this compact kit helps you accurately set manifold pressure for natural or L.P. gas.

- Sensitive diaphragm gauge calibrated in inches of water column
- Improved lamination strength of

diaphragm (bellows) to brass plate withstands higher over-pressure.

- Tube nipple for easy connection to system manifold
- Two gauge ranges available

UPC#	Description
78055	Complete test kit - 0-10" W.C.
78056	Barb-fitting gauge - 0-10" W.C.
78057	1/4" NPT Male gauge - 0-10" W.C.
78060	Complete test kit - 0-35" W.C.
78061	Barb-fitting gauge - 0-35" W.C.
78066	1/4" NPT Male gauge - 0-35" W.C.
78062	Hose with nipple
78064	Brass barb-fitting
78065	Rubber nipple
78059	Gauge crystal
78063	Carrying case

The unique single bellows on brass plate design replaces the double bellows for a stronger seal that resists greater over-pressure.
