

# Liquidtight Conduit Fittings

## Liquidator™ Liquidtight Flexible Metallic Conduit Fittings

Eaton's Crouse-Hinds liquidtight product line offers high-quality, high-performance fittings. Designed to the toughest standards and integrating the latest technology, not only do you get a reliable and durable product, you also get one that reduces installation time and cost. Our versatile lines of liquidtight fittings are designed for a wide range of applications. Choose from our Liquidator™, LiQuik™, Zinc Die Cast, Non-Metallic or Low Profile liquidtight fittings.

CP

### Applications:

Typical applications for liquidtight conduit and liquidtight fittings include the wiring of machine tools, motors, transformers, food processing equipment, robotics, air conditioning units, illuminated store front signs and billboards, etc. The flexible metallic conduit and fittings protect conductors from mechanical damage due to vibration and movement, and seal out cutting oils, coolants, water, dust, etc. Applications such as these can be found in, but are not limited to, industries such as:

- Machine tool manufacturers
- Electric power generating plants
- Waste treatment facilities
- Paint manufacturing facilities
- Automobile manufacturing facilities
- Aerospace industries
- Breweries
- Food processing plants
- Dairies
- Pulp and paper mills
- Petroleum refineries
- Chemical and petrochemical plants

### Certifications and Compliances:

- UL Listed liquidtight flexible metal conduit fittings are suitable for use in the following hazardous locations under NEC, Class I, Division 2; Class II, Division 1 and 2; and Class III, Division 1 and 2, and are suitable for grounding in sizes 3/8" through 1 1/4" under NEC.
- UL Standards: 514B, 467
- cUL Standard: C22.2 No. 18F
- UL File No. E-19189

### Standard Materials:

- Body – Straight: 3/8" through 6" malleable iron, or 3/8" through 4" aluminum
- 45° – 3/8" through 4" malleable iron
- 90° – 3/8" through 4" – malleable iron or aluminum
- Gland nut – malleable iron or aluminum
- Ferrule – 3/8" through 6" – steel
- Gland nut sealing ring – polyethylene
- Sealing gasket – thermoplastic elastomer
- Locknut – steel or aluminum

### Standard Finishes:

- Malleable iron – zinc electroplate
- Polyethylene, thermoplastic elastomer, aluminum and die cast – natural

| Product Features  | User Benefits  |
|---|--|
| • UL Listed, cUL Certified.   | Assurance of safe and reliable performance. End user peace of mind.  |
| • Provides protection in wet locations.   | Meets NEC and UL requirements for use in wet locations. Reduces downtime and replacement costs.                            |
| • Available in various configurations in various trade sizes and materials.               | Complete selection of styles and sizes. Easy selection from one source, saves time and money.                              |
| • Hex surfaces on gland nut and body.   | Easy wrenching. Fast, easy installation results in labor savings.  |
| • Thermoplastic elastomer sealing gasket effectively seals out water, oil, dust and dirt. | Eliminates leakage, potential downtime and replacement costs.  |
| • Lock nut bites into box, won't vibrate loose.   | Provides a reliable ground and safety of personnel and equipment.  |
| • Cupped long grounding ferrule is distortion-free.                                       | Provides excellent pullout strength, prevents conduit popout and provides grounding for safety of personnel and equipment. |
| • Concrete tight  | Provides rugged durability in concrete applications.   |
