### Customer Service Rep Janet Davidsmeyer to retire after 31 years at Fasco

Janet Davidsmeyer

Chances are, if you're a Fasco customer, you've talked with Janet Davidsmeyer in our Customer Service Department. That's because Janet's worked at Fasco for more than 31 years. So it is with

heartfelt "good luck" and "best wishes" that her co-workers and customers say "Happy Retirement!" to Janet this September.

Janet started working at Fasco in 1978 in our OEM sales group, but a short time later transferred to the FDC Customer Service Department.

"I've always really enjoyed my job," Janet said, when asked to look back on her years at Fasco. "There's never been a boring day... I've always learned something new... there's always been a great satisfaction in helping a customer or coworker overcome a challenge... and I've thoroughly enjoyed speaking with our customers on a daily basis."

What's next for our friend and coworker? Not days on end of rest and relaxation! Janet already has plans to start working part time doing accounting work. And in the Spring of next year, Janet plans on an extended vacation with her husband to visit the states of Alaska, Oregon and Washington.

When asked what she'll miss most about working at Fasco, Janet didn't hesitate in her reply. "I'll really miss all the people I worked with, the customers that used to stop in and say hi, and the customers I talked with day in and day out." Janet — all of us will miss you, too!

## New Product News
