

FREQUENTLY ASKED QUESTIONS

What does A/C Leak Freeze™ fix?

It permanently seals air conditioner and refrigerant system leaks in home and commercial HVACR applications.

I'm a business owner and I want to fix my own A/C system. Can I?

A/C Leak Freeze™ is for professional use only. To find a HVACR technician near you that is qualified to use A/C Leak Freeze™, Contact Us.

How does it work?

A/C Leak Freeze™ is inert until it mixes with any refrigeration gas. A/C Leak Freeze™ is activated by refrigerant escaping at the site of the leak — forming a chemical weld and repairing the system.

Why should I install A/C Leak Freeze™ with Magic Frost?

A/C Leak Freeze™ with Magic Frost stops leaks, lubricates the A/C system, enhances cooling efficiencies, extends compressor life and is ideal for A/C systems 2 years and older.

Will it clog the compressor or recovery unit?

No, A/C Leak Freeze™ is formulated and has been certified to not harm A/C refrigeration components.

How much do I use and how large of a leak does it repair?

See our Application Instructions.

How long will it stay in a system?

A/C Leak Freeze™ will stay in a system indefinitely, following the refrigerant. If the refrigerant must be reclaimed, A/C Leak Freeze™ is reclaimed with it.

Is it proven in the field?

Yes, the A/C Leak Freeze™ formulation has been in use for years, with over a 97% success rate.

Where is it manufactured?

A/C Leak Freeze™ is made in the United States.

Can A/C Leak Freeze™ be used in automotive air conditioners?

No, it is formulated exclusively for use in HVACR applications.
