

# DID YOU KNOW?

As the inventor of self-regulating heat tracing, our Raychem brand of cables continue to be the leader in the industry and are manufactured in our ISO 9001 certified facility in California. You can be assured of the quality built into every Raychem product.

## WINTERGARD WET AND GARDIAN SYSTEM

### ENERGY EFFICIENCY

Raychem heating cables' self-regulating core generates heat when and where it's needed. The core continuously adjusts its heat output to the environment at every point along the heating cable, thus reducing the overall energy costs for the season.

### WARRANTY

Raychem heating cables' standard limited two year warranty is available for all WinterGard Wet and Gardian products. Contact us for more information.

**Raychem**

## ROOF AND GUTTER DE-ICING SYSTEMS

THERMAL BUILDING SOLUTIONS

[WWW.PENTAIRTHERMAL.COM](http://WWW.PENTAIRTHERMAL.COM)

# THE PROBLEM

Winter storms cause ice to build up on roofs, in gutters, and in downspouts.

At the roof's eave, ice forms and creates a heavy pool of water. Ice dams at the roof's edge are the major cause of winter roof damage.

**Raychem**

Water trapped behind an ice dam can easily penetrate into your home and cause:

- Mold and mildew
- Structural damage

Ice dams can also cause:

- Hazards from falling icicles
- Exterior damage to your roof and gutters

# THE SOLUTION

**A Raychem self-regulating heating cable will put an end to ice build-up hazards.**

Raychem self-regulating heating cable system eliminates icicles and ice dams safely and efficiently.

Raychem systems can be used on roofs and in gutters and downspouts. It is designed for use on all types of standard roofing materials, including metal, plastic, wood, shake/shingle, rubber and tar.

## SAFETY

Customers can be assured that they are receiving the highest quality product from a company that has the most extensive experience in designing roof and gutter de-icing systems.

## VALUE

- Saves energy
- Will not burn out
- Will not overheat roofing materials or plastic gutters
- Can be cut to length
- Can be overlapped
