

Humidity Control

Better Performance, Less Water*

Balance Humidity to Maximize Health, Comfort, and Preservation

Introducing the NEW AprilAire 720 Fan-Powered Evaporative Humidifier with HydroCore™ Technology.

Humidity for Health: Proper humidity reduces airborne bacteria, viruses, fungi, and dust mites, helping prevent respiratory infections, allergies, and asthma symptoms.

Humidity for Comfort: Whether your home is in a dry region of the country, or in an area with seasonal dryness, maintaining the proper humidity levels can make all the difference in how comfortable you feel in your home.

Humidity for Preservation: Help preserve the natural beauty of wood floors, cabinetry, furnishings, and anything else in your home susceptible to warping, cracking, or other permanent damage due to low humidity levels.

Featuring
HydroCore™
TECHNOLOGY

Humidity: Raised

Industry-Best Performance

At 21 gallons per day, the AprilAire 720 Humidifier delivers the industry's highest capacity** to meet your humidification needs faster than ever.

60% Less Wastewater*

The innovative recirculation valve recycles water and increases performance, while simultaneously reducing water down the drain.

Save up to 15,000 gallons of water per year^ and save on utility bills with the AprilAire 720 Humidifier.

2X More Efficient*

The AprilAire 720 Humidifier is 2X more efficient than its predecessor, optimizing entire homes.

Fast, Easy Maintenance

The one-piece HydroCore™ cartridge quickly pops in and out to make changing the water panel easier than ever.

Is the AprilAire 720 Fan-Powered Evaporative Humidifier right for you?

For homes up to 6,250 square feet. Let's discuss your needs today! Recommended if you or your family are experiencing dry skin or nasal passages, chapped lips, or static shock, or if your home has wood furnishings including hardwood floors.

Humidifiers are part of the **AprilAire Healthy Air System®**, which follows ASHRAE and health officials' guidelines for healthy indoor air.
